

Fixes:

1.Update of 3D Tree – CoHeart Website:

Please change/replace the existing tree element on the CoHeart website as discussed.

2.Navigation Error – Intervention Page:

After navigating to the “Intervention” tab and opening a specific intervention (example : HerEcho) from that configured page the “Drive” option in the header is not opening/showing options.

However it functions correctly from other sections of the website.Kindly resolve this issue.

3.Payment Integration – Recurring Payments / Subscription Option

Currently, there appears to be no option for enabling recurring payments or subscription-based payments within the payment integration settings.

Kindly provide guidance on implementation.

As part of the website handover, kindly provide:

1.Domain ownership access

2.Hosting account access

3.Admin access to the website

4.All login credentials

5.Renewal dates (domain + hosting)

6.Full working backup copy including

a.Full website source code

b.Database backup

c.Themes,plugins,images etc

7.Please provide documentation of the technical stack, third party integrations, hosting configuration and any security or maintenance processes

8.Please confirm that all code, themes and plugins are not copied & legally licensed and fully transferable with commercial rights.

9.Admin training session recording

Note:

As we are a non-technical team we request you to kindly provide all essential files, credentials, licenses, documentation, and access required for the complete functioning, maintenance, and ownership of the website, even if any item has not been explicitly mentioned above.

If any of the requested items are not applicable to our website, please clarify accordingly.

However if any relevant component exists and is necessary for operation or future management, we request you to include it in the handover to avoid any gaps.
